# PrinBord® FINE X™

OSB (Oriented Strand Board)

*Crafted for Refined Finishing*

PrinBord® FINE X™ is an oriented strand board collection designed for refined interior applications. With fine surfaces, consistent quality, and versatile finishing possibilities, it offers a more affordable alternative to decorative plywood while empowering every detail to make a lasting impression.

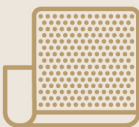

#### SMOOTH MATTE FINISH

A refined matte surface that looks clean, modern, and premium. Suitable for stylish interior and furniture applications.

#### FORMALDEHYDE-FREE & ENF GRADE CERTIFIED

Made with safer, low-emission materials for a healthier indoor environment. ENF grade gives better confidence in air quality and safety.

#### PLYWOOD-GRADE STRENGTH & STABILITY

Built with strong structural performance similar to plywood. It offers reliable stability for furniture, panels, and interior works.

#### ODOURLESS & VOC FREE

No strong chemical smell, making it more comfortable for indoor use. Ideal for homes, offices, and commercial spaces.

#### WET PROOF

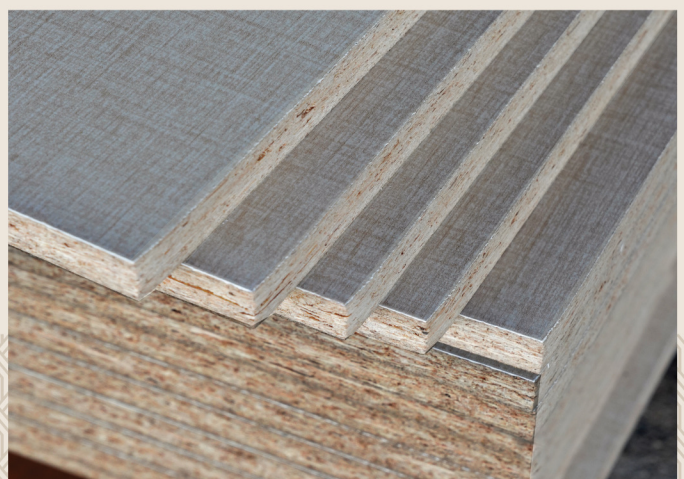

Designed to resist moisture better than ordinary boards. Suitable for areas where humidity and occasional water exposure are concerns.

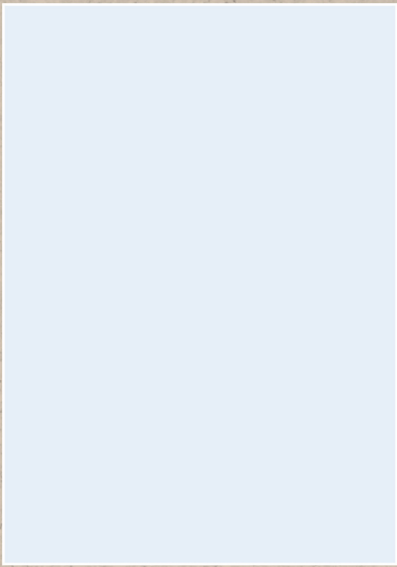

#### COST-EFFECTIVE

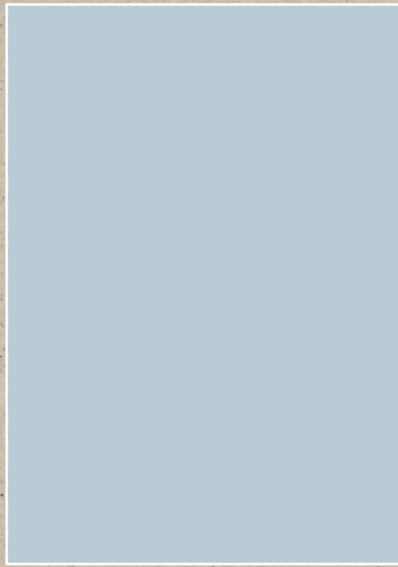

*(Alternative To Decorative Plywood)*

Delivers a premium look and practical performance at a more affordable cost. A smart choice for projects that need both quality and budget control.
